Peer-reviewed workshops

Every course blends expert-authored reading, knowledge-check quizzes, hands-on ComplyNexus platform labs, AI-graded written assignments, and a QR-verifiable completion certificate. Learning outcomes are mapped to a competency framework of **16 competencies** (Bloom levels 1–6) across **5 learning-plan templates**. **Languages:** the full learner experience is available in **English, Traditional Chinese** (the written standard for Hong Kong's Cantonese-speaking workforce), **Simplified Chinese and German**; course editions in additional languages — including fully localised Cantonese-market editions — can be produced on demand.

Individual courses (13)

CODE	COURSE	PRICE	MODULES	QUIZZES	QUESTIONS	ASSIGN.	INTERACTIVE

The ESG-AI Playbook: From Rules to Action	—	available
The ESG-AI Vision	—	coming soon
The Canonical ESG-AI Governance Glossary	—	available
AI Leadership Blueprint: Hong Kong	—	available

How this datasheet is produced. Moodle has no native one-click datasheet export — its built-ins are technical course backups, admin report tables, and competency CSVs. This document is generated by a script that reads ComplyNexus Academy's live database, so the figures are current as of 2026-07-06 and the datasheet can be regenerated on demand as the catalogue grows. · For educational purposes; figures reflect platform configuration, not enrolment numbers.
